

Sprint 1 Review

X2CRM Web Portal

X2Force

July 9th, 2018

Actions to be halted:

- Working on setting up development environment

Actions to be started:

- Begin developing app
- Integrate GrapesJS with X2CRM in some capacity (considering possible changes in implementation)

Actions to be continued:

- Team members not acquainted with development technologies reading documentation/tutorials on PHP, JavaScript, Yii, and SQL

Work Completed:

- AWS set up
- Git repo is set up
- Netbeans IDE setup
- Rest of the team is familiarized with PHP, GrapesJS, and JavaScript

Work Not Completed:

- All tasks completed

Work Completion Rate:

- Completed 1/1 user stories (setting up development environment and getting non-acquainted team members being the two tasks making that user story)
