

Sprint Plan
Project Plan: X2 Web Portal
Team Name: X2Force
Completion Date: July 09, 2018
Revision Version: 1.0
Revision Date: July 02, 2018

High level goal: For this sprint, the main goal is to not only completely set up our developing environment, meaning our server and IDE to use for development, but also get the team members who are not familiar with the technologies we plan to use familiar with them.

Task Listing:

User story - As a developer, I need to be able to understand the technologies we are using for development and have an understanding the languages we are developing in.

Task 1 - Set up the GrapesJS environment and test its functionalities.

Task 2 - Familiarize the team with the basics of PHP.

Task 3 - Get a basic understanding for using an Amazon web server.

Task 4 - Share acquired knowledge with teammates.

Task 5 - If time permits, learn Javascript.

Team Roles:

Clifton Chiang - Helping Justin (Law), Pulkit, and Shawn get familiar with the technologies, setting up development environment

Justin Toyomitsu - Scrum Master, helping Justin (Law), Pulkit, and Shawn get familiar with the technologies as well, also helping set up development environment

Justin Law - Going to be learning the development tools

Pulkit Sood - Going to be learning the development tools

Shawn Chumbar - Going to be learning the development tools
